The home of Mr. and Mrs. Corey Bonney and six children, North Paris, was burned late Wednesday night. The family escaped in their night clothing. Reportedly no household furnishings were saved.

COMMENTS FROM THE TOWN MANAGER'S OFFICE

At the annual town meeting held on Monday evening appropriations voted were \$174,604.00 to be appropriated by taxation, with an additional \$20,000.00 appropriated from surplus. The net increase over 1959 amounts to \$5,224.00.

Following the town meeting the Selectmen met and organized for 1960, electing John H. Carter as chairman, and Harold G. Bennett, as vice-chairman. Their first appointment was Harold L. Bean as Town Manager, with the duties of tax collector, treasurer, road commissioner and overseer of the poor.

Applicants for the position of night officer will be interviewed on Thursday evening, March 10th. Appointment will be made at an early date.

Notices are currently being prepared to send to delinquent taxpayers informing them as to what action will be taken against them if their taxes are not paid by a specified date.

Currently there are eight unpaid 1957 tax liens which are due to expire on March 29th. Each property owner was recently notified of the expiration date, and if any lien is permitted to expire title will then be in possession of the town. The selectmen will then have a right to sell any property which is acquired by expired tax liens.

Sincerely,
Harold L. Bean

ATTENTION: BETHEL JAYCEES

The next meeting of the Bethel Chapter is this coming Monday night, March 14, at the Methodist Church.

A free spaghetti supper will be served to the membership and guests by the losing team of the membership drive starting at 6:30 p. m.

The regular meeting will follow the supper with guest speaker, Sheriff Lassiter.

A large attendance means a strong local chapter that can accomplish things for our town. So let's continue to have a good turn out and show our town that we are a club, formed for the purpose of helping the town through unity of the young men in town that want action, and are willing to give our time and effort to accomplish this goal.

REPUBLICAN CAUCUS TO BE HELD MARCH 16

A caucus of the Republican voters of the town of Bethel will be held at the Selectmen's Office, 7:30, Wednesday evening, March 16.

To elect a local Republican Committee and officers.

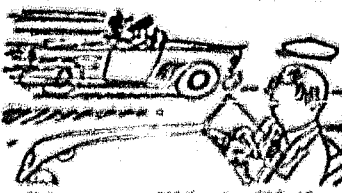

To elect delegates and alternates to the Republican State Convention and the Republican District Convention, both of which are to be held at Bangor, April 28 and 29, 1960.

To nominate candidates for membership on the Republican County Committee of this County.

To transact any other business which may properly come before said Caucus.

This caucus is a meeting of all registered Republicans in Bethel and it is important to have a representative number of interested Republicans in attendance as this meeting will elect delegates to the state convention who, in turn, will name delegates to the Republican National Convention for the nomination of candidates for President and Vice President.

Bethel Appropriations \$5000 Over Last Year

An hour and a quarter of Bethel's town meeting in Odion Hall Monday evening allowed time for discussion of the town's business and appropriation of some \$5,000 more than last year's total. Accounts having increases are: officers' salaries, \$250; hydrant rental, \$364; liability insurance, \$50; town dump, \$150; state aid construction, \$1,860; aid to dependent children, \$200; schools, \$3,900; Community Room, \$300. Accounts reduced: surfacing, \$3,000; sidewalks, \$300; welfare, \$500; parks and cemeteries, \$100; airport, \$250. New accounts: capital improvement fund (fire station), \$5,000; pine blister rust control, \$400.

In the only contest in the election, which was held during the day in the Community Room, Rodney Howe was chosen to serve as a member of the Superintending School Committee three years, succeeding Charles Keoskie. He was supported by 182 votes, while his opponent John Tebbets received 98.

Town Manager Harold Bean and Superintendent of Schools Donald Christie were called upon for explanation of questions in their departments, although in most cases these matters were covered in the text and statistics of the printed report. WOMEN CONSERVATIVE, SAYS STATE SPECIALIST

"Maine women are usually conservative about the use of color in their homes," says Mrs. Pauline Lush, State Home Management Specialist, "but we are likely to run wild with patterns. There are no rules for color which cannot be broken," she added, "but it is important to know what you are doing when you break them. The best color schemes are planned color schemes. It is wise to build a color scheme in good proportion by having one color dominate, one secondary, and one for accent."

WHAT MAKES A GOOD KITCHEN UTENSIL?

What are some of the points which make a good kitchen utensil? Why do you select one in preference to another? Is price the major factor you consider? These and other questions were among those asked by Mrs. Pauline Lush, Extension Home Management Specialist of the University of Maine at a recent training class for Home Management Leaders in the Paris area of the county. The selection, care and use of cooking utensils, was the subject of this class. Home Management Leaders will be conducting this meeting in their own communities during the coming weeks. Those attending this class were: Mrs. Anne King, Mrs. Marion S. Shaw, Mrs. Mione Record and Mrs. Doris Cornell, all of South Paris; Mrs. Gladys A. Gurney and Mrs. Ruth Rice of Norway; Mrs. Kathleen Erickson from the Albany group; Mrs. Florence Brett and Mrs. Rowena Tripp from Welchville; Mrs. Mina Baker and Mrs. Marian Chase from West Paris; and Mrs. Barbara Warren and Mrs. Harriett Bell from Buckfield.

DIABETES TESTS SLATED AT FARM AND HOME WEEK

Free diabetes tests will be given to all adult visitors at Farm and Home Week at the University of Maine March 28 through 31. The Maine Department of Health and Welfare will give the tests in the Memorial Union Building March 28, 29 and 31. When the body can't use up the sugars and starches taken in as food, diabetes develops. Miss Ruth T. Clough, health education consultant for the department, estimates that there are more than two million diabetics in the United States. Half of them don't know they have it.

COUNTRY FLAVOR

SPLITTING WOOD
In the days when farm homes used wood for big, shining kitchen stoves and for nickel-tipped, handsome base heaters, a lad knew that one of his annual jobs was splitting the wood.

During the fall and early winter, the oak, maple, ash and beech was cut and piled in the woodland, and when snow conditions where right the wood was hauled to the yard behind the house. The sawyer with his gasoline engine came and the chunks were left in a great heap, ready for splitting.

On March and April Saturday, a lad went at it. It wasn't a bad task—better than hauling dressing to the fields. Chunks were set on a low chopping block and the straight-grained pieces split easily. Mother wanted both good-sized and small triangular pieces of hard wood for her baking. She wanted separate tiers in the wood shed of oak and maple, for she claimed one kind of wood was best for bread and cakes, and another for pies and puddings.

Tough knotty chunks were tossed into a heap for the base burner. A chunk of maple or oak would keep a fire going through a winter night and insure a bed of glowing coals for a quick start on a zero morning.

MAN'S RECIPE

OATMEAL COCONUTTIES
Just to answer a question once and for all that skeptical ladies are forever asking Blanche, let me say this. I clean up the kitchen after I have finished cooking! I wash and dry the pots and pans; I put them away. And if needed, I run the dry mop over the floor.

I'll cheerfully admit that I have changed my tune a bit concerning the amount of time necessary to cook and clean up. It takes longer than I supposed it did to cook and restore order. Sometimes I clean up as I go along; sometimes I wait until things are in the oven before starting the clean-up.

I especially enjoying evolving cookie formulas, and this is a cookie I like. It is chewy and moist and keeps well. Use one half cup butter or margarine, one cup sugar, three fourths cup brown sugar firm-packed, two eggs beaten, one and a fourth teaspoons vanilla, one fourth teaspoon almond extract, one cup flour, one half teaspoon soda, one third teaspoon baking powder, one teaspoon salt, one half cup quick-cooking oats, one half cup dried coconut, one half cup chocolate bits and two thirds cup chopped walnuts.

Cream sugars and shortening. Add beaten eggs in which vanilla and almond extract have been mixed. Blend. Add baking powder and salt in sifter, and mix with fork. Sift into egg and cream mixture. Mix all well. Add oats, coconut, chocolate bits and nuts. Mix again. Drop by teaspoon on greased cookie sheets. Flatten a bit with fork. Bake at 350 for 14-16 minutes—and be careful not to overcook.

Whatever happened to that \$39,000?

This man has averaged \$75 per week in salary over the past 10 years — and hasn't a single penny to show for it.

Sure, the cost of living has been high; but if our friend had banked as little as \$2 out of each week's paycheck, he'd have more than \$1,000 saved today.

Shelby, Mont., Promoter: There are probably child TV viewers who... believe that the human head is divided into three rooms, one with a hammer pounding away and another shooting sparks; that the human stomach is made of glass with a long crooked tube leading into it; that the stomach has a cute little trap door that lets the good "B's" out and keeps the "bad" aspirins in.

Trenton, Mich., Times: Proof that Americans are a tolerant people lies partly in the fact that the inventor of the juke box died a natural death.

Trenton, Tenn., Herald-Register: When the income tax was first adopted, there were those who wished to place a limit of five percent on it, but others laughed them to scorn, stating that the government would never have need for so much from any citizen. But now the income tax digs into some of the higher incomes for as much as ninety-two percent! A virtual confiscation of the income. And social security is showing the same tendency. It started out with a minimal deduction from the pay check, and a forced duplication of the amount from the employer, and has gone up consistently until the government now gets a total of six percent of each pay check, half from the employee and half from the employer. The latter receiving no benefit from the deduction whatever.

Norwalk, Conn., Hour: Since the first Sputnik went spluttering into the wild blue yonder, there has been a great vogue for following the example of Soviet Russia in matters related to science, on the theory that the Communists have the last word. Dr. Atkinson, was a delegate to the International Federation for Documentation, held in Warsaw, Poland, last September. He found the Russians were copying the American system and were decentralizing at the mo-

ment our scientists were urging that the Soviet method be followed. If we aren't careful we'll meet ourselves coming back.

The Canova, S. D., Herald: We still think that some of the federal laws have a lot to do with juvenile delinquency that is so prevalent these days. The minimum wage law and child labor laws make it practically impossible for businessmen to take in a youngster as an apprentice and teach him the business, as was the custom years ago... and as a result a lot of young fellows are left to their own devices, which is not a healthy condition. A lit-work wouldn't hurt any of them and learning a trade would be desirable.

Fl. Lauderdale, Fla., News: Even the price of charity has gone up, according to Leo Randall of the Southside Lions Club. A National Kids Day Foundation in California raised \$3,978,000, then withheld \$3,250,000 as the cost of the fund raising. A New York group took in the amount of \$53,000 to train guide dogs

FROM OUR FILES

10 YEARS AGO

The plant of the E. L. Tebbets Spool Co. at Locke Mills burned. Loss estimated at \$250,000. Lost in the blaze were the sawmill and former grist mill building, a dry shed full of finished products and other buildings connected with the main mill, the rear of the office and a loaded freight car. The Bethel, Bryant Pond and Newry fire departments cordoned the damage to mill property although nearby houses were threatened.

Michael Anetie was appointed acting town manager of Bethel, where he had been planning engineer two years.

Bethel voted 230-15 in favor of the new school building at Crescent Park School.

FHA FAMILIES PLAN FOR BETTER FARMING

Approximately 44 farm families representing a good proportion of those owning Farmers Home Administration credit in Oxford and Androscoggin counties have completed a series of educational meetings with Elwyn B. Morrow, the agency's county supervisor, to take a careful look at their 1959 operations and to make 1960 plans.

Mr. Morrow said this year's analysis is a service given by the agency which makes loans to eligible farmers to operate, improve, or enlarge family-type farms.

As a result of this study of their farm operations, Mr. Morrow said, some of the better practices that farmers here are working into their 1960 plans include: (1) using adequate lime and fertilizer, (2) soil testing, (3) D.H.J.A. testing of the herd, (4) culling herds and flocks, (5) better gardens, canning and storing, and (6) using adequate equipment.

Farm families in Oxford and Androscoggin counties now using FHA credit include 96 with operating loans, 47 with farm ownership loans, and 38 with loans to build or repair houses or other farm buildings.

Loans totaling \$170,455 have been made to farmers in this area in an 8-month period since June 10, 1959. Of this amount, approximately \$103,905 has been for acquiring equipment, livestock, seed, feed, fertilizer, and paying other operating costs, and paying for labor and materials in connection with housing and other improvements. This money, and the extra money from increased income, circulates through local trade channels.

Good farm planning and record keeping are carried on throughout the year and play an important part in operations financed with FHA credit. As proof that good practices pay off, Mr. Morrow pointed out that during fiscal year 1959 10 farm families repaid their loans in
